

Welcome

Welcome to my Website and Blog!

The most common question that people have for me is (actually there are TWO):

1. What exactly do you do and **how can you help me?**
2. Why Online Marketing (for Wealth) **AND** Wellness & Fitness (for Health), instead of just focusing on **ONE** thing?

What exactly do you do and how can you help me?

I personally help people attract online leads for their home businesses.

Regardless of whether you have a network marketing business, a “nanny” service, a “student painting” company, or are even in the process of (or thinking about) starting your own home business, I’m here to make sure that customers **FIND, FOLLOW** and **CONTACT YOU** online.

Am I qualified to do this?

Do I have any “Street Cred”?

“Short” answer, YES.

If you want my “Long” answer, fill-in the form at the bottom of this page and include your phone number. I will personally call you!

Here’s my answer “In a Nutshell”:

I’ve been a struggling entrepreneur for a couple of decades now and have recently identified one of my main reasons for consistent failure.

I was continuously “Chasing” people who were not “Qualified”.

In other words, I was approaching people who were not particularly interested in what I had to offer.

Now, I have 50 to 100 “qualified” people (that are interested in what I have to offer) CONTACT ME every day.

Ask yourself this...

Would 8 to 10 qualified leads (people coming to you) PER DAY help your business?

If the answer is “Yes”, then I can definitely help you out!

Simply fill-in the form at the bottom of this page and I will get back to you immediately!

If you include your phone number. I will personally call you!

Why Online Marketing (for Wealth) AND Wellness & Fitness (for Health), instead of just focusing on ONE thing?

When [Sir Richard Branson](#) was asked what daily habit contributed the most to his financial success, he answered:

“Working out.”

That’s his number ONE... and it makes perfect sense.

Without going into details here, when you pay attention to your health, not only will you live a longer and more pleasurable life, but you will function better (physically and mentally).

I’ve been a Martial Arts Instructor for over 20 years and could not agree more with Mr. Branson.

As a matter of fact, when I personally skip my morning

workout, I don't "tackle" my day in the same "Go-Getter" fashion as I would if I did work out.

Even though I'm not teaching Martial Arts these days, I feel that it only makes sense if I share some of my knowledge along the way.

This is why you will generally see three types of posts and videos on my [Blog](#).

1. **Wealth** posts (Online Marketing Strategies)
2. **Health** posts (Wellness and Fitness Tips)
3. **Random** posts (Life Experiences and Lessons Learned)As far as business is concerned, I've found 4 models that consistently work for me.
 1. eCommerce (I have never lost money while building my eCommerce Business)
 2. Network Marketing – Provides Residual income that can grow exponentially.
 3. Affiliate Marketing
 4. Teaching others to Grow their businesses.

So if you are a newbie internet marketer, or you want to learn about selling stuff on eBay or Amazon, you've come to the right place!
